

Fast Facts Jacobs Well Mooring Area

ABOUT: The Jacobs Well Mooring Area is a category 3 area located in the waterway at Jacobs Well within the Designated Mooring Area (DMA) in the Moreton Bay Marine Park.

CURRENT MOORINGS IN THE AREA: Forty-six (46) traditional swing moorings.

FUTURE CAPACITY: The Gold Coast Waterways Authority has identified that this site may potentially allow the establishment of up to seventy (70) environmentally friendly swing moorings.

IMPORTANT: The 2014 Buoy Mooring Review identified certain instances where GCWA buoy mooring areas do not align with Designated Mooring Areas within the Moreton Bay Marine Park and/or with the current management of declared Fish Habitat Areas. GCWA and Department of National Parks, Sport and Racing (NPSR) are working together to resolve these issues, which involves a legislative review process by NPSR. In the interim, GCWA may only grant buoy mooring authorities in the Designated Mooring Area.

(Note: The establishment of additional buoy moorings at this site is subject to a range of factors; for example, vessel character, natural occurrences such as ongoing shoaling, and marine development.)
