

Improving Cabbage Tree Point waterways and providing safer access

Delivering our plan to *Sustain, Enhance* and *Promote* Gold Coast Waterways

The Gold Coast Waterways Authority (GCWA) is investing \$35.3 million in projects over four years to sustain, enhance and promote our waterways.

About the project

This project will maintain clear navigational access to the main channel and reuse the dredged sand to upgrade the adjacent foreshore at Cabbage Tree Point below the high water mark.

Benefits to the community

- Improve nautical safety and maintain navigational access to the main channel between the Gold Coast and Brisbane
- Protect the accessibility of anchorages at the foreshore for local residents
- Ensure sustainable management of Gold Coast waterways.

Our other Enhancement projects in this area of the Gold Coast include:

- Jacobs Well Crossover channel (Completion around September 2016)
- Tipplers Passage channel (Completion around July 2016)

Our **Waterways Management Program 2015-19** identifies more than 60 projects being planned and delivered over the next four years. To find out more about our program, visit www.gcwa.qld.gov.au/program

About us
