

Delivering our plan to **Sustain, Enhance & Promote** the Gold Coast waterways.

Surfers Riverside Revitalisation Project Fact Sheet

The Gold Coast Waterways Authority is implementing the Surfers Riverside 10-year Masterplan.

This project will deliver the second outcome of the Masterplan, connecting Surfers Paradise with our beautiful waterways with an architecturally designed foreshore in Appel Park.

The new foreshore features tiered seating blocks leading down to the river. Visitors to the park will enjoy a new recreational space to relax by the water's edge.

Benefits:

- A reinvigorated and modern facelift to this much enjoyed inner city riverside park.
- A new opportunity to enjoy the Gold Coast as a waterside city.
- Bringing new visitors to the area, it will stimulate local economic development.

SUSTAIN, ENHANCE AND
PROMOTE OUR WATERWAYS.

About Us.

The Gold Coast Waterways Authority (GCWA) is the Queensland Agency responsible for improving access to and the management of our waterways. We are committed to ensuring that our waterways are a world class asset available to residents, visitors and businesses.

We have more than 60 projects being planned and delivered over the next four years.

To find out more about our Program, visit www.gcwa.qld.gov.au.
