The Gold Coast Waterways Authority is improving access to the waterways by constructing a new pontoon at Alberton.

Located at Alberton Road, Alberton, this project involves:

- Investigation, options analysis, design and approvals
- Construction of a new pontoon

A conceptual plan is shown overleaf depicting the proposed structure.

**Benefits**

- The brand new pontoon structure will meet growing demand for recreational access to the Logan River
- A flood resilient queuing facility to maximise efficient launching and retrieval practices

**Impacts**

- A barge and piling rig will operate in the waterway which may restrict waterways access during the construction works period (approximately four weeks)
- Access to the boat ramp for both vehicles and vessels will not be affected

Keep up-to-date with this and other GCWA projects by visiting [www.gcwa.qld.gov.au](http://www.gcwa.qld.gov.au) or by liking our Facebook page.

**About Us**

Gold Coast Waterways Authority (GCWA) is a State Government statutory authority responsible for improving access to and management of the Gold Coast waterways.

We’re committed to ensuring that our waterways are a world class asset available to residents, visitors and businesses.

We have over 50 projects planned for delivery over the next 4 years.
