

Fast Facts ⓘ Hollywell Mooring Area

ABOUT: The Hollywell mooring area is a category 3 area located within the Broadwater near Runaway Bay and the western side of Crab Island.

CURRENT MOORINGS IN THE AREA: There are currently 6 buoy moorings for smaller vessels in the mooring area – 5 traditional buoy moorings and 1 environmentally friendly mooring.

FUTURE CAPACITY: This mooring area is limited to smaller vessels. There would seem to be enough space and depth for up to 6 environmentally friendly moorings; however, this would depend on the type, length and draft of these smaller vessels.

Note: The establishment of buoy moorings in this area may be affected by several factors, such as sand movements and shoaling, other water traffic, and future marine development.
